

Supplements for: Changes and trends in budburst and leaf flush across Europe and North America

A meta-analysis of local adaptation in spring phenology studies

Ziyun Zeng & E. M. Wolkovich

November 2022

Methods

Table for all studies

Mapped locations for all studies

Results

Corrected DOY results

Fitting each species & common garden instead of just species

MAT difference

**Might want to include how the model looked when we included studies with
disagreeing provenance & gardens**
